Application

Cold storage rooms

Benefits and profitability

Extends product shelf life and prevents dehydration

Prevents and reduces food waste

Reduces volume and weight losses

Boost sales and builds customer loyalty

Tailoring

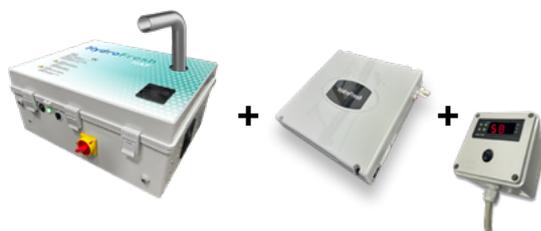

Each cold room type and size requires a study to define the equipment needed to achieve the required humidity.
Different combinations of the two models are used to provide the most effective solution.

Control

Easy-access and easy-to-operate panel to control operation:
- ON & OFF switch
- Humidity level reading and regulation

Models: According to cold room Volume (m3)

Model HAF-C 6
Dimensions: 500x400x190mm

Model HAF-C 12 / 24
Dimensions: 600x500x200mm
